Revolutionizing the Future of Orthodontics

Study Club with Dr. Daniela Lupini

24. září 2025 | 15:00-19:00

Dr. Daniela Lupini biography

Dr. Daniela Lupini is a highly respected specialist in Orthodontics and Pediatric Dentistry. With a career marked by numerous professional memberships and leadership roles, she has made significant contributions to the field. Dr. Lupini is an active member of the Italian Society of Orthodontics (SIDO), the European Board of Orthodontists (EBO), and the Italian Board of Orthodontists (IBO). She has also served as the Past President of the Italian Aligners Society (SIALIGN) and the Founding Member and Past President of the Italian Board of Orthodontic Aligners (IBOA). Currently, she is the Treasurer of the Italian Society of Orthodontists (SIDO). In academia, Dr. Lupini is an Adjunct Professor of Orthodontics at the University of Trieste in Italy. She has been an Invisalign provider since 2002, showcasing her long-term commitment to advancing orthodontic treatments.

This session by Dr. Daniela Lupini provides an in-depth look at the clinical journey facilitated by Align™ Digital Workflow, emphasizing the application of Invisalign® clear aligners and the innovative Invisalign® Palatal Expander. Starting with advanced digital scanning technology supported by iTero™, we delve into precise diagnosis, personalized treatment planning, and clinical outcomes that set new standards in orthodontic care.

We will explore the integration of the Invisalign® Palatal Expander with Invisalign First™, focusing on its application in early orthodontic treatment. By combining the Invisalign® Palatal Expander with Invisalign First™, orthodontists can address skeletal and dental discrepancies effectively, offering a patient-friendly alternative to traditional methods. During the session, we will investigate clinical considerations and protocols and share best practices and case studies to achieve exceptional clinical outcomes, using a variety of digital tools. This approach not only enhances treatment outcomes but also improves patient comfort and compliance.

Přednáška bude v anglickém jazyce.
